

Harvard Continental Climate Workshop

June 15-16, 2023

Organizers: Kaighin McColl (Harvard) and David Battisti (University of Washington).

Location: The workshop will be held at the Harvard University Center for the Environment (HUCE). Here are [detailed directions to HUCE](#).

Harvard University Center for the Environment (HUCE)
26 Oxford St, 4th floor, Cambridge, MA 02138
617-495-0368
<https://environment.harvard.edu/contact-us>

Accommodation: All attendees without accommodation in the greater Boston area are being provided accommodation at Hotel 1868 in Porter Square, Cambridge, for the nights of June 14, 15 and 16. The hotel is a 15 minute walk from HUCE. If we are providing lodging, you should have received an email confirmation of your reservation already – if not, please contact Stephanie Clayman.

Hotel 1868
1868 Massachusetts Ave, Cambridge, MA 02140
617-499-2998
<https://www.hotel1868.com/>

Meals and refreshments: A light breakfast, lunch, dinner and coffee will be provided. All meals and refreshments will be held in HUCE. The one exception to this will be dinner on June 15 at 6 pm, which will be held at the Harvard Faculty Club, a 10 minute walk from HUCE.

Harvard Faculty Club
20 Quincy St, Cambridge, MA 02138
617-495-5758
<https://www.hfc.harvard.edu/>

Talks: Each speaker will have 30 minutes in total. Please aim to speak for no more than 20 minutes, to allow plenty of time for questions and discussion. To facilitate smooth transitions between speakers, we plan to have all slide presentations downloaded to a local PC laptop (Mac users: please consider saving your slides as a PDF to avoid compatibility problems). Please email your slides to sclayman@fas.harvard.edu ideally by **noon on Wednesday, June 14**. Please also bring a backup copy on a thumb drive or laptop.

Internet access: Harvard provides internet access for visitors through eduroam.

Contact:

Kaighin McColl: kmccoll@seas.harvard.edu, 781-866-0672
David Battisti: battisti@uw.edu, 206-295-0356
Stephanie Clayman: sclayman@fas.harvard.edu, 617-495-3637

Agenda

Day 1 (June 15)

8:30-9:00 am	Breakfast	
SESSION 1		
9:00-9:10	Introduction: Kaighin McColl and David Battisti	
9:10-9:40	Francina Dominguez	<i>Dry land surfaces and their effect on atmospheric circulation</i>
9:40-10:10	Abigail Swann	<i>Climate impacts of land process uncertainty</i>
10:10-10:40	Marysa Laguë	<i>Terrestrial evapotranspiration impacts on global climate</i>
10:40-11:10	Break	
SESSION 2		
11:10-11:40	Alexis Berg	<i>Investigating soil moisture-climate coupling: a review of GLACE-type experiments</i>
11:40-12:10 pm	Justin Mankin	<i>Carbon feedbacks and continental aridity</i>
12:10-1:00	Discussion	
1:00-1:40	Lunch at HUCE	
SESSION 3		
1:40-2:10	Inez Fung	<i>Tree mortality during the California drought</i>
2:10-2:40	Noel M. Holbrook	<i>Stomatal control of transpiration: a plant's eye view</i>
2:40-3:10	Pierre Gentine	<i>How does water stress regulate photosynthesis?</i>
3:10-3:30	Break	
SESSION 4		
3:30-4:00	Guido Salvucci	<i>Diagnosing observed land-precipitation feedbacks with cloud-topped mixed layer and LES models</i>
4:00-4:30	Dennis Baldocchi	<i>Measuring and interpreting eddy covariance flux measurements on field to landscape scales</i>
4:30-5:00	Kaighin McColl	<i>An analytic theory of near-surface relative humidity over land</i>
5:00-5:50	Discussion	
6:00	Dinner at the Harvard Faculty Club	

Day 2 (June 16)

8:30-9:00 am	Breakfast	
SESSION 1		
9:00-9:30	Karen McKinnon	Land surface controls on the near-surface climate
9:30-10:00	Yi Zhang	A new theory for extreme temperatures over midlatitude land
10:00-10:30	Michael Byrne	Extreme temperatures over a wide range of climates: land and ocean regimes
10:30-11:00	Break	
SESSION 2		
11:00-11:30	Jack Scheff	Temperature, CO ₂ and water scarcity: what can we learn empirically?
11:30-12:00 pm	Lucas Vargas Zeppetello	Crop yields and climate variability in a simple model
12-12:50	Discussion	
12:50-2:00	Lunch at HUCE	
SESSION 3		
2:00-2:30	Richard Seager	An unexpected decline in spring atmospheric humidity in the interior southwestern United States
2:30-3:00	Dara Entekhabi	Distinct differences in land-atmosphere coupling in continental climates
3:00-3:30	Paul O’Gorman	Seasonal contrasts in the intensification of precipitation extremes over land and their link to changes in surface relative humidity
3:30-4:00	Break	
4:00-6:00	Discussion	
6:00	Dinner at HUCE
